BENTLEY, RIMBEY AND LACOMBE BOYS AND GIRLS SWIMMING CLUB AT EDMONTON

The Rimbeys, Bentley and Lacombe Boys and Girls swim club exhibited at the Provincial show at Edmonton for the first time. The showing they made was very creditable indeed, in competition with sixteen cars. The clubs were awarded third place.

The boys and girls exhibiting single hogs also did very well, they brought home close to (\$150.00) in prize money.

The girls' judging teams did exceptionally good work.

The Misses Margaret Roper and Sybil Graves of Lacombe, secured fourth prize in the Ramsey special competition, for girls only.

Miss Beatrice Saint and Selma Anderson of Bentley received second in the same competition and came within 1 1/2 points of winning the C.P.R. trip to Toronto. These two girls stepped out in their first year and gave a one hundred per cent demonstration, but as only 29 points was allowed for this, they were counted out because they were 80s short from Bentley. Better luck next time girls.

BLACKFALDS

The Sunflower W. I. Girls' Club held their semi-monthly meeting at the home of Mrs. Trueman Miller on Monday evening of this week. Nineteen, together with their Supervisors were present. The meeting opened by singing of O Canada followed by the Roll call. After the business session, a sewing lesson was given to the smaller girls. Mrs. Giff gave a splendid paper on the life and work of Lord Tennyson. The next meeting will be held at the home of Miss Ha on Nov. 26. A Concert and sale of Christmas gifts in connection with the above club will be held in the Community Hall on Dec. 3rd. Admission will be 25c. and children under 12 free.

Mr. E. E. Matthias had a very narrow escape from serious injury on Monday. He was driving a team hitched to a sleigh, and in going down a steep incline in the yard near the gate, the sleigh upset and buried him against the gate. His head was badly bruised, and he narrowly escaped losing one of his eyes.

On Friday last over two hundred people attended the chicken supper at Spruceville. The people came from long distances to the annual event. A short programme and dance followed the supper.

Mrs. Farr and family, of Burbank have moved into town for the winter, to be closer to school for the children.

A slight snow fell last week and it with us yet. The farmers of this district have finished threshing.

New Anglo-Turkish Pact

Will Help in Fighting Soviet Propaganda in Near East
Negotiations are proceeding for an Anglo-Turkish pact which, while stilling the position of the Ankara government, will solve many of Great Britain's difficulties in the near east. Turkish finances are in a bad way and one of the features of the proposed agreement is a substantial loan to Turkey by British banks.

Do Not Recommend Increase

Constitution Board Not in Favor of Granting Wage Increase to Railwaymen
Recommending that there be no increase in wages of fifteen thousand conductors, firemen and yardmen of the Canadian Pacific and Canadian National railways, the board of constitution, appointed July 28, last, to investigate the wage dispute between these employees and the companies, has filed a majority report with the minister of labor.

Neuralgia Conquered

Its Pain Destroyed
Magical Results Come When You Apply
Nerviline
It Acts Quickly
Mr. W. T. Greenway, formerly connected with the railway department, has written: "For twenty years we have used Nerviline in our home, and for the world it is the best remedy for neuralgia, toothache, cramps and disordered stomach. I know of no preparation so useful and quick to relieve as Nerviline." Remember this, wherever there is pain, run, run, run, and you will get prompt results--35c at all dealers.

Irishmen Going To Scotland

Scientific Tree Growing

Only Way Any Country Can Preserve Its Forests
The commercial sale of forestry has been confined to rubber trees. In the future it should be counterbalanced by the business of raising them. A smaller area than will provide the resources. Nature doesn't follow the market in the selection of species or grow as many trees to the acre as scientific husbandry can grow. By planting the right varieties densely cutting them as soon as they mature, we shall have all the timber we profitably can raise; and that is all any settled country dare expect. — Louisville Courier-Journal.

Elevated Roads For Traffic

Expert Advances Idea to Relieve Congestion in London
A London on, treated in years to come has been visualized by Lord Montagu, traffic expert, who is aiding in unravelling the city's traffic puzzles. The travelling public has a roared objection against going down into the bowels of the earth for the underground systems, Lord Montagu believes, and his plans for the future include viaducts 200 feet above the present street level, with escalators for both pedestrians and vehicles.

Was So Nervous

The Least Noise Made Her Jump
Mrs. W. H. Yates, Ashern, Man., writes: "I was bothered very much with my heart and nerves, and my heart noise would make me jump and almost stop my heart beating. I told my mother about it one day, and she said she had been troubled the same way and told me to get a box of MILBURN'S HEART NERVE PILLS."

The Correct Idea

Hon. Robt. Forke and His Views on Immigration
Speaking at Winnipeg, Mr. Robert Forke is reported as saying that Canada would not immigrate, and did not care where they came from provided they were sound in body and mind and were willing to work. This is a correct idea, though it may shock some people. For years there have been some persons in Canada who have assumed that only those who could pass severe physical, mental and moral tests could safely be admitted to share in the development of the country.

Cannot Keep Track Of Days

Lonely Alaska Inhabitants Ask Broad-Caster to Announce It
Up in far-off Alaska, where most people are lonely inhabitants only once a month, it is sometimes difficult to keep track of days, and here a new demand has been made on radio in a letter received by A. R. McEwen, director of radio for the Canadian National Railways, Montreal, from station CNRV at Vancouver. The letter came to a watchman at a fishing plant at Red Bluff Bay, Alaska, and his plant is one from a lonely group of people who desire to know, during a broadcast, not only the time and place, but also the day of the week.

"There are three of us here at a lonely fishing plant," the letter stated. "My friend and one other man. We get mail only once a month, and one day is so much like another that it is very difficult to keep track of days and dates. Will you, therefore, during your winter programs, which we tune in for, announce the day of the week and the date so that we can keep informed of the time."

The request is being complied with.

How To Order Patterns

Address: Winnipeg Newspaper Union
115 McDermott Ave. Winnipeg
Pattern No. 1303

Practical and Decidedly New

This little dress of attractive design for daytime and schooltime would be equally effective if fashioned of figured or plain material with contrasting collar and set-in yoke. An inverted plait in center front gives the necessary fullness, and the sleeves are long and gathered into narrow wrist-bands, or short. A belt fastened with a buckle in front is placed at top of the hips. No. 1303 is in sizes 6, 8, 10, 12 and 14s. Size 8 requires 2 1/2 yards of material; size 14 requires 3 1/2 yards. 20 cents.

Bandaged Duck Is Shot

A bandaged female mallard duck has been shot at Oak Lake, Man., by Walter Jiggins. The metal plug on the duck's leg bore the number 306673, and the legend that the biological survey department has notified. There is no information as to whether the bird was banded in Canada or the United States, but both Ottawa and Washington, D.C., will be notified of the bird's death.
